EDUCATION

Government College Dharmshala

Bachelor of Technology in Computer Science Engineering; GPA: 7.7/9.5

Kangra, Himachal Pradesh, India

August 2024 – May 2026

Government Polytechnic Sunder Nagar

Diploma in Computer Science Engineering; Percentage: 73%

Sunder Nagar, Himachal Pradesh, India

Nov 2020 – June 2023

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Typescript, HTML5, CSS3, SQL, Java, C++, MongoDB

Frontend Technologies: React.js, Redux, REST APIs, Responsive Web Design, Tailwind CSS

Backend Technologies: Node.js, Express.js, REST API Design, Authentication (JWT/Sessions)

AI & Emerging Tech: Generative AI (LLMs, ChatGPT API, Claude API), Prompt Engineering

Core Competencies: Object-Oriented Programming, Web Performance Optimization, Code Review

EXPERIENCE

Gocoder

January 2026 – Present

Full Stack Engineer Intern

Remote, India

- Engineered reusable React.js component library with Tailwind CSS, reducing UI development time and ensuring consistent cross-device rendering across mobile and desktop breakpoints.
- Designed and integrated RESTful APIs using Axios, implementing dynamic client-side routing, form validation, and error handling – improving overall user flow and reducing failed form submissions.
- Built full CRUD backend modules with Node.js, Express.js, and MongoDB, including schema design, input validation, and authentication middleware using JWT, supporting core product features end-to-end.
- Participated in agile sprints in a remote team – managed tasks via Git branching workflows, conducted peer code reviews, and resolved 10+ cross-browser and responsiveness bugs across production builds.

PROJECTS

Global Education & Career – Full-Stack Platform for International Studies & Career | [Live](#) | [GitHub](#)

React.js, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Tailwind CSS

- Developed a comprehensive full-stack platform that enables users to explore global universities and job openings, featuring advanced multi-attribute filtering (by country, program, tuition, and industry) to streamline international career planning.
- Built secure RESTful APIs with Node.js and Express, implementing JSON Web Tokens (JWT) and role-based access control to separate distinct workflows and dashboards for Students, Counselors, and Administrators.
- Implemented an end-to-end application tracking system with real-time status updates, dynamic document upload capabilities, and automated email alerts via Node mailer to keep applicants informed at every stage.

Visualization of Data Structures and Algorithms | [Live](#) | [GitHub](#)

MERN Stack (MongoDB, Express.js, React, Node.js), Canvas API, Algorithm Animation

- Built a full-stack DSA visualizer using React, Vite, Tailwind CSS, and Express, implementing 10 algorithms across sorting, searching, and graph traversal.
- Engineered step-based animation controls with play, pause, seek, and speed tuning, plus real-time metrics for comparisons, swaps, reads, and writes.
- Developed an integrated assistant API and chat UI to explain algorithm complexity, pseudocode, and JavaScript implementations, improving concept learning and revision.
- Integrated OpenAI API to develop a domain-specific AI assistant for Data Structures and Algorithms.

CERTIFICATIONS

JavaScript Algorithms and Data Structures

2024

freeCodeCamp

React JS Certification

2025

GeeksforGeeks

ACHIEVEMENTS & LEADERSHIP

Earned certifications in JavaScript (freeCodeCamp) and React.js (GeeksforGeeks); consistently practicing DSA to sharpen problem-solving skills.

Problem Solving: Developed strong analytical and debugging skills through algorithmic challenges and real-world bug fixes.
